

Stencils for the Mario themed bar decorations

The decorations were made with foam covered in colored fabric spray painted with various colors using these stencils.

The background colors consisted of the actual colors of the fabric hence we used yellow fabric for the luma and ?-cubes and red for the brick cubes. As for the spray paint we managed using only orange and black for all.

The stencils are as follows:

- * the luma
- * the orange part of the ?-cube (leave the ? out for the bottom)
- * the black part of the ?-cube (leave the ? out for the bottom)
- * the orange part of the brick side (not so important)
- * the black part of the brick side
- * the black part of the brick bottom
- * the coin
